SECTION 1: TEMPLATE REVIEW

2.1.1 Line 2: <html> Line 110: </html>
Line 3: <head> Line 42: </head>
Line 44: <body> Line 109: </body>

2.1.2 A framed size on a display screen for viewing information. The viewport allows you to tell the mobile browser what size this virtual viewport should be. It is the way to normalise device zoom and ensure your site is shown using an actual device width as opposed to any virtual widths. It contains properties for the content attribute such as the width, height and initial-scale. The width is the physical width of the virtual viewport of the device in pixels, The height is the physical height of the virtual viewport of the device in pixels. Initial-scale this is the initial zoom of the webpage.

2.1.3 Cascading Style Sheet (CSS) and Javascript

3.1.3 The style is for the .pull-left class which is inside the #content ID

4.3.2 The #sidebar-image .panel-body is causing the text to be justified since its padding is 0 pixels

4.4.1 The browser uses responsive images, it detects when a desktop or mobile device is used and changes the images according to the devices.

SECTION 3: FORM REPORT

SECTION 4: CLIENT EMAIL

TO : elize@waverlyguesthouse.co.za

SUBJECT: Your website is ready for final testing

The site has been completed, the site has planned, built, a web host and domain has been chosen and the Waverly Content has been published.

Testing the site focuses on the web applications and the functionality of the site. The website can be tested on the following link: <http://www.underconstruction.co.za/waverly>. The website should be tested before the site is revealed to the public. While testing the site issues can be addressed such as the security of the website, the basic functionality of the site, its accessibility to handicapped users and fully able users, its ability to multitude of desktops, devices and operating systems as well as readiness for expected traffic and number of users and the ability to survive a massive spike in user traffic, both of which are related to load testing.

The deadline for testing the site is 10 June 2016 and the launched date is on the 26 June 2016.
